## COMPANY PROFILE

**Clarity Water Solutions** is a leading global company dedicated in producing diversified products ranging from Water purifications to Solar power & Security devices. **Clarity Water Solutions** integrates a wide range to technologies, products & services to offer total tangible solutions for industry, Community and homes. **Clarity Water Solutions** Products adhere to highest international standards of manufacturing.

In all **Clarity Water Solutions** is a one-stop solution for Water, Air, Energy, Solar Power & Environment Management Solution for domestic, commercial and industrial use. We provides high quality product that benefits every sphere of the consumer life.

**Clarity Water Solutions** comprises of a dedicated team of Engineering, Technician & Administrator and all are well qualified and trained in their respective fields to provide superior quality products & unmatched customer services.

**Clarity Water Solutions** is a company run by technocrats having Engineering, Marketing and customer service experience of more that a decade. For us, bringing Health Care/Energy saving & Security products for every individual and companies, is more that just a business, it is passion. It is, in fact the very purpose of out existence. We empower individuals, organizations and business with out unique services.

The company is engaged in Manufacturing, Sales and service of the various products through out three divisions that are Manufacturing, Services & R & D. We have a leading edge over our competitors in sales process and have been successfully marketing out uniquely designed service and annual maintenance contracts.

As a company, by following the spirit of the Code, **Clarity Water Solutions** creates an operating environment where management sets clear goals, company leadership is engaged, and all operations are accountable for their performance and practices. Our business style is practical, with an emphasis on openness, informality and candid, conversational exchange among employess. We expect all employees equally to uphold the Company's standards for ethics, intergrity and work practices. Today **Clarity Water Solutions** is the leading name in the field or Water Treatment, Waste water treatment systems, STP, Water Harvesting.

## DIVISION OF WORK

Water Treatment Plants

Waste Water Treatment Plants

Water Treatment Chemicals

## WATER TREATMENT PLANTS

- RO Plants
- UF/MF/NF Plant
- Softener Plant
- DM/DI Plant
- Mineral Water Bottling Plant
- WTP Filters Plant
- Consumables
- Swimming Pool

## WASTE WATER TREATMENT PLANTS

### EFFLUENT TREATMENTS PLANTS

**Clarity Water Solutions** manufactures complete line of ETP including biological treatment, liquid / solids separation systems. De-watering equipment & instrumentations and control to operate all the processes. These technologies incorporate latest advanced in the industry to provide the most trouble free and cost effective treatment.

**Technologies used for treatment of Various effluents :**

Precipitation , Membrane filtration  
Electrolytic separation, Ion exchange  
Adsorption, Air and steam stripping  
Evaporation and distillation  
Chemical oxidation, E-FAB  
Biological oxidation or reduction.

### SEWAGE TREATMENT PLANTS

**Clarity Water Solutions** offers Decentralized treatment system for making effective use of natural processes like gravity, micro biological activity and temperature.

**Clarity Water Solutions** is also Designing Customized Plants according location & Nature of Sewage. We are also providing package systems for Hotel, Hospital, Institutes, Residential Society.

**Clarity Water Solutions** offers decentralized state of the art following package sewage treatment system based on.

1. Activated sludge Process. (ASP)
2. Mobile containerized STP
3. Compact plant based on Fluidized aerobic reactor (FAB)
4. Moving Bio Bed Reactor (MBBR)
4. Sequential batch Reactor (SBR)
5. Constructed Wetland Technology (CWT)/ Eco-GreWT

## RECYCLING PLANTS

- Ultra Filtration with Reverse Osmosis
- Membrane Bioreactor Technology with Reverse Osmosis

## ZERO DISCHARGE PLANTS

- Recycling System With Mechanical Evaporator/Solar pond.
- Recycling System With M.E.E.
- Recycling System With Forced Evaporation

## CHEMICALS

Clarity Water Solutions supply various type of chemicals required for water, waste water, boiler and for which we have developed & imported both type of chemicals (Toxic & Non-Toxic) and the same have been marketed for different application as below

- Speciality Chemicals
- MBR Chemicals
- ETP Chemicals
- RO Chemicals
- Process Chemicals
- Cooling Tower
- Boilers

## INDUSTRIES WE SERVE

- ➔ HOTELS & RESORTS
- ➔ HOSPITALS
- ➔ HOUSING PROJECT
- ➔ EDUCATIONAL INSTITUTES
- ➔ TEXTILES INDUSTRIES
- ➔ FOOD & DAIRY INDUSTRIES
- ➔ AUTOMOBILES
